

Welcome to the Episcopal Church of Bethesda-by-the-Sea

And the Lord God planted a garden in Eden, in the east...

...the tree of life also in the midst of the garden...

~Genesis 2:8-9

We are pleased to have you as our guest today. As you tour our grounds, please use this brochure as your guide to the trees and other flora that grow in the most beautiful place. This, the present Church of Bethesda-by-the-Sea, is the third location of the church and was completed in 1925.

The crowning jewels of Bethesda's grounds are the Garden Chapel and the Cluett Memorial Garden. The Cluett Memorial Garden was a gift of Miss Nellie A. Cluett in memory of her parents, George and Amanda Cluett. The beautiful coquina that you see in the garden was imported specifically for Bethesda by Miss Cluett.

We hope you will enjoy using the map and legend inside to identify the variety of trees on these grounds and gardens. Some are very rare.
